

Leavin' On My Mind

By Rusty Goodman

This old house I'm living in is needing some repair,
The windows and the shutters are letting in the cold, cold air.
I say to myself 'I'm gonna fix it when I get the time,
But all I'm getting lately is leavin' on my mind.

Chorus: Lately all I've got is leaving on my mind,
Seems that all I'm thinking about most of the time,
Soon and very soon I'll leave my troubles far behind.
Lately I've got leaving, leaving on my mind.

I guess I should be looking for a better place to live.
I can't seem to get excited about the world and what it can give,
I couldn't care less if I could buy it all with a solitary dime,
What good would a world do me with leaving on my mind.

Chorus: Lately all I've got is leaving on my mind,
Seems that all I'm thinking about most of the time,
Soon and very soon I'll leave my troubles far behind.
Lately I've got leaving, leaving on my mind.
