

## **I've Made Up My Mind**

I have lipstick for my frontal lobe, I have powder for my brainstem,  
I have rouge for my cerebral cortex, and my medulla oblongata,

I have a brain that looks so fine sitting high atop my spine,  
With a brain that looks this way, I'll be prepared when people say—  
Make up your mind.

I have a handsome hypothalamus, a pretty cerebellum,  
On my occipital lobe is Maybeline, hypo-allergenic,

I have a brain that looks so fine sitting high atop my spine,  
If you could do an autopsy, and open up my brain to see—  
I've made up my mind.
